

## REMARKS

Claims 1-12 stand allowed.

The Examiner suggested adding headings to the specification under 37 CFR 1.77(b). Applicant gratefully acknowledges the Examiner's suggestion, however respectfully declines to add the headings as they are not required in accordance with MPEP §608.01(a). Applicants note that such section headings are not statutorily required for filing a non-provisional patent application under 35 USC 111(a), but per 37 CFR 1.51(d) are only guidelines that are suggested for applicant's use. They are not mandatory, and in fact when Rule 77 was amended in 1996 (61 FR 42790, Aug. 19, 1996), Bruce A. Lehman, Assistant Secretary of Commerce and Commissioner of Patents and Trademarks, stated in the Official Gazette:

"Section 1.77 is permissive rather than mandatory. ... 1.77 merely expresses the Office's preference for the arrangement of the application elements. The Office may advise an applicant that the application does not comply with the format set forth in 1.77, and suggest this format for the applicant's consideration; however, the Office will not require any application to comply with the format set forth in 1.77."

Miscellaneous Changes in Patent Practice, Response to comments 17 and 18 (Official Gazette, August 13, 1996) [Docket No: 950620162-6014-02] RIN 0651-AA75.

In view of the foregoing amendments and remarks, favorable reconsideration and early passage to issue of the present application are respectfully solicited.
